

TRANSMITTAL SLIP		DATE 29 Jul '82
TO: Chief, Operations Group		
ROOM NO.	BUILDING	
REMARKS: Don't know how far along planning is on [] operation, but believe Mike's proposal has merit and should be given serious consideration. This paper implies that we would need a satellite link in order to operate FAX. I don't think this is necessarily so. (Don't believe the VCVC is on satellite, although I suppose phone systems in Europe are a little more reliable.) Anyway, here it is for your perusal. We are also looking at remoting to Peru. Think empire! <div style="border: 1px solid black; width: 150px; height: 40px; margin: 0 auto;"></div>
